Homeowners Association

REQUEST FOR ADMINISTRATIVE ARCHITECTURAL APPROVAL INCONSEQUENTIAL CHANGE

SOLAR INSTALLATION

I would like to request administrative architectural approval as provided under Section 9.7 of the Coronado Cays Homeowners Association Member Handbook. The property address of the proposed solar panel installation is: _____

Proposed location of solar panels (Please attach plans and installation specifications): _____

Homeowners are encouraged to install solar panels in a location on the home that **minimizes the visual impact of the panels**. Conduit and boxes must match the building color or must be painted to match the color of the building. New installation must preserve integrity of roof water seal. Owner assumes responsibility for any future loss or damage related to this installation.

This is a complete description of the solar installation. I understand that if I have misled the staff with regard to the size and location of the solar panels or if I have omitted any significant part of the work in the above description, I could be subject to a fine, liability and/or the removal of the solar system after it has been installed.
