

Coronado Cays - Kingston

7-10 Day Notice of Site Survey

Jon Wayne Construction and Consulting will be performing the – **deteriorated wood survey between November 2, 2017 and November 22, 2017**. JWC will be inspecting all exterior accessible wood components. The crew will use a ladder as required to gain access to 2nd floor locations. JWC will need access through all gates / doors to access balcony decks. **Working hours are Monday through Friday between the hours of 8:00 a.m. and 5:00 p.m.**

Please ensure that JWC will have access through gates (if any) to perform the inspection at your unit. Ensure all pets are contained during this period of time. Ensure that all personal belongings are moved a minimum of 2 feet from the walls of your unit so our crews will be able to access the wood components that will be surveyed.

If there are special scheduling needs with reference to your unit, please contact us and we will do our best to accommodate your request. We would be happy to schedule a set inspection time that works for the resident and our inspector.

If you have any questions or concerns, please contact Carl Cizek at 760-244-3596 or ccizek@jwcconstruction.com. You may also reach the CCHOA office at 619-423-4353 if you need their assistance.

Sincerely,
