CORONADO
— Gateway —

SR-75 Coronado Gateway Project Workshop #1

January 28, 2015 • 6-8 p.m.
Community Center
1845 Strand Way

The City has initiated a project to transform the SR-75 toll booth plaza into the Coronado Gateway. The goal is to create a community vision for a gateway that represents the beauty, history, and character of Coronado. Come to the first public workshop to learn about design treatments and provide input on what values and components are most important to you and your community!

Please join us for an exciting workshop that includes:

- **Brainstorm:** Share your ideas for the Coronado Gateway.
- **Small group discussions:** Work in groups to capture the vision for the Coronado Gateway.
- **Interactive poll:** What should the Gateway look like? Take the poll and see what the rest of the community is saying. Please bring a tablet/iPad/smart phone to participate in the live online survey. The poll will be available online as well as in paper format to complete in-person at the workshop.

Please contact Ed Walton, Director of Engineering, with questions or concerns at 619-522-7385 or ewalton@coronado.ca.us or visit the project website at:
